

baremedical®

Dressing Pack Basic

Baremedical basic dressing packs are designed to save time and reduce costs associated with in-house assembly and instrument reprocessing. Instead of creating storage space in your facility for numerous, individually packaged items which are pulled again and again for similar procedures, our basic dressing packs are a single item pulled from one location.

Features & Benefits

- Helps promote standardized procedures
- Reduces costs associated with in-house assembly and reprocessing
- Saves time by having everything you need in one place
- Encourages consistent product usage and adherence to protocol
- Reduces waste and helps keep picking errors to a minimum
