PRIMARY CARE

Portable Suction Unit **DF-760**

- Modern Designed A.B.S outer shell for easy maintenance. Simple controls for easy operation.
- A great balance between size, style and performance. This unit is light weight and produces lower noise compared to many other suction pumps, but it still offers great flow rates and maximum suction pressure to ensure genuine strong reliable suction required by Hospital, Clinic and other Medical Users.
- This unit incorporates our latest 90-046 oil-less vacuum pump. Twin Cylinder piston in design, using an aluminium alloy die cast body and various precision elements. High running hardness, wear resistance, non-polluting, long life and free maintenance.

Detail Explanation

① Vacuum gauge	⑥ Bottle lid (vertical)
② Regulator gauge	⑦ Float control
③ Switch green color	⑧ 1000c.c. bottle
④ Filter & tubing	⑨ Connective tube
⑤ Filter (S)	⑩ Bottle lid (curved)

Standard Accessory

● Suction tube (180cm)	1 PC
● Suction catheter	1 PC
● Filter (S)	2 PCS

SPECIFICATIONS	DF-760	DF-760A
Capacity	1000c.c. bottle x 1	1000c.c. bottle x 2
Vacuum Range	65 ~70 cm/hg	65 ~70 cm/hg
Max. Flow	35 liter/min	35 liter/min
Safety Device	Level float control	Level float control
Machine Size (CM)	L42 X W16 X H28	L27 X W30 X H28
Packing Size (CM)	L50 X W23 X H35	L41 X W35 X H35
Net Weight	6.3 KGS	6.9 KGS
Gross Weight	7.0 KGS	8.0 KGS
