

baremedical®

Cohesive Bandage

Baremedical cohesive bandages are designed to hold dressings in place through consistent pressure. The self-adhesive material conforms smoothly to the body's natural contours while maintaining its original size. baremedical cohesive bandages offer light compression for delicate or traumatized skin and provide soft tissue support for minor strains and sprains. They are available in various sizes to assist medical staff in administering general wound care.

Features & Benefits

- Self-adhesive and easy to remove which eliminates the need for fasteners or clips
- Ideal for light compression to help staunch bleeding and for support in affixing IV's
- Multiple sizes available
